

ORCHESTRATE

VIDEO TRAINER

CAPTURE THE EVENT
FIRST TIME  EVERY TIME

INTRODUCING VIDEO CAPTURE AND STREAMING SOLUTIONS FOR TRAINING

High Quality Video | Secure Live Streaming | Unmatched Design and Security

Network Wide Access | Easy User Interface | Record Securely | Multi-Cam Video and Audio Playback

Bookmarks/Notes Live and Post Capture | LMS, LDAP and HR Integrations | Create Graded Video for Compliance Reporting

Orchestrate Video-Trainer features high-definition video and audio recording from multiple cameras in 720p and 1080p HD. Advanced microphone sync and Multi-Cam with full audio support records procedures, clinical skills trials for medical schools, manufacturing processes, first-responder training and certification, and athletic activities as examples. Securely Live-Stream events during recording for remote training for new customers, product deployment support, and remote technical support for complex machinery and processes.

Orchestrate Video-Trainer is a Hybrid, Cloud based, and/or On-Premise based system that streamlines the recording process. Video-Trainer's easy functionality and simplified user interface takes control of the recording process with a single tap - no need to deal with the extra overhead associated with outdated systems. The solution also supports metadata capture from devices and cameras if desired, with a fully customizable interface to assist with the organization's processes for compliance and records.

DWS offers custom services to integrate **Orchestrate Video-Trainer** into existing backend databases, LMS, LDAP, HR, and other records systems. The **DWS** solution is designed to be flexible by integrating existing records systems to avoid duplication of interfaces and costs for personnel. Once configured, the solution runs automatically to index, secure, move, store, and manage digital media.

KEY FEATURES

LIVE STREAMING

Securely stream audio and video to any workstation client on the network. Bi-Directional Streaming for court procedure, digital arraignment, and legal procedure meetings.

INTUITIVE ORGANIZATION

Sort evidence in a way that works for you with custom metadata categories in the existing CMS, RMS, or other current data management applications.

ACCESSIBLE FROM ANYWHERE

Detectives, prosecutors, judges, child advocacy staff, and more can watch interviews securely from anywhere on the network.

VIDEO BUFFERING

Never miss a moment with ORCHESTRATE VIDEO TRAINER'S continuous buffer to capture an event even if the recorder was mistakenly not turned on.

SECURE STORAGE

Protect your interviews from tampering and false accusations.

ANNOTATE VIDEO

Easily make annotations for quick playback of key moments.

FLEXIBLE HARDWARE OPTIONS

Choose between covert or overt camera options to best fit the policies and workflow of the organization: ONVIF Compliant.

PORTABLE HARDWARE OPTIONS

Fully featured Portable Hardware Recording Options with live streaming from the field with Cellular Networking.

SPECIFICATIONS

TAMPER-PROOF TECHNOLOGY	SHA-2 hashing algorithm and chain of custody including standard reports
VIDEO ENCODING	H.264 baseline and main profile (MPEG-4 part 10/AVC), streaming compliant
CAMERA SECURITY	HTTPS encrypted communication to the camera, IEEE 802.1x network access control
SUPPORTED PROTOCOLS	IPv4/v6, FTP, CIFS/SMB, SMTP, Bonjour, UPnP, ONVIF
POE SUPPORT	Power over ethernet IEEE 802.3af/802.3at type 1
COVERT OR OVERT CAMERAS	Support for either style of camera
RUGGED	Vandal resistant
BUILT IN REDUNDANCY	Redundant recording servers, RAID 1 redundancy for OS and application
